

FEBRIAN NAUFAL IRFANSYAH

Kebumen, Central Java – 0895606418480

febriannaufalirfansyah@gmail.com – linkedin.com/in/febriannaufalirfansyah

A fresh graduate with a Bachelor's degree in Industrial Engineering from Universitas Sebelas Maret, with strong interest in Data Analysis. I have gained academic experience through courses such as Data Analytics and Information Systems Analysis and Design, as well as completing the Google Data Analytics (Beginner) Course on Coursera. With this background, I am familiar with analytical and visualization tools including Excel, MySQL, Tableau and Python Programming Language. I am eager to further develop my expertise and contribute to solving problems that enhance industrial and business performance.

EDUCATION

Sebelas Maret University– Surakarta, Central Java

August 2021 – July 2025

Industrial Engineering

Related Courses: Data Analytics, Information Systems Analysis and Design, Computer Programming

EXPERIENCE

PT DUA KELINCI

November 2025 – Ongoing

Manufacturing Acceleration Program

- Acting as Sub-Section Head and Section Head for wafer division to gained experience about food production, from early processing to final packing, including quality control and coordination with line operators.
- Analysed bottlenecks and provided targeted process-improvement recommendations.
- Conducted over 10 Root Cause Analyses (RCA), small kaizen project to reduce product waste as part of a structured process improvement initiative.
- Conducted Small Group Activity (SGA) to reduced wafer crepes export defect rate from an average of 3.6% to 2.0% over a 6-month period.

PT KONIMEX

January 2024 – February 2024

Intern – Pharmaceutical Engineering

- Conducted workload analysis of technicians by processing 2,000+ activity data collected through observation and interviews.
- Applied the Full Time Equivalent (FTE) method to identify workload conditions of technicians (overload, underload, and normal).
- Provided improvement recommendations, including preventive scheduling, overtime limitation, and the development of a structured reporting template.

QUALITY SYSTEM LABORATORY

August 2023 – August 2025

Laboratory Assistant

- Managed lab modules and delivered practicum sessions on Composites, Statistical Process Control (SPC), and Acceptance Sampling for PPTI I–III courses.
- Developed data-based practicum and coordinated with lecturers and three other laboratories to synchronize activities.

Head of Knowledge Division

- Led main division programs including educational content, laboratory quizzes, lecturers projects, and assistant training.
- Designed and implemented Excel training programs (Pivot Table, VLOOKUP, data verification) to enhance data analysis skills among assistants.

Statistic Software Training Mentor

- Conducted four online training sessions based on case studies, engaging 100+ student participants.

TEDxUNS 2023

April 2023 – November 2023

Head of Administrative Secretary Division

- Drafted and managed 10+ official documents (letters, proposals, activity reports) from pre-event preparation to the main event execution.
- Designed and distributed certificates for all committee members and speakers as a form of appreciation.

KURSUS & SERTIFIKASI

• **Google Data Analytics Specialization – Coursera**

November 2024 – December 2024

• **Project Management – Google Course Certificate X Komdigi**

October 2025 – December 2025

• **Python Programming 2026 – University of Helsinki**

January 2025 – Ongoing
